

Storytime: Young Childrens Literary Understanding in the Classroom (Language and Literacy) (Language

Talk Together

Children learn about language by listening and joining the conversation. As children hear spoken language, they learn new words and what they mean. Talk about the activity or book you are sharing with your child.

Sing Together

Songs and Rhymes are a wonderful way for your child to learn about language. Singing slows down language so children can hear the different sounds that make up words. Try singing in the car, at bath time, and while doing chores. Share favorites like "Wheels on the Bus" & "Itsy Bitsy Spider".

Read Together

Shared reading is the single most important way to help children get ready to read. Reading together increases vocabulary and general knowledge. It helps children learn how print looks and how books work. Children who enjoy being read to are more likely to want to learn to read themselves.

Write Together

Reading and Writing go together. Practice writing letters and drawing shapes and pictures. Using crayons and glue sticks help develop fine motor skills, preparing your child for writing.

Play Together

Play helps children express themselves and put thoughts into words. Play helps children think symbolically, so they understand that spoken and written words can stand for real objects and experiences.
